

AutoInsights for Sales

Turning every customer conversation into a competitive advantage. Empowering sales leaders with AI-driven performance and predictive intelligence.

Turn Conversations Into Conversions

Sales contact centers generate thousands of data points daily. AutoInsights captures and transforms this unstructured data into actionable insights to help your team coach smarter and sell more effectively.

Drive Effectiveness

Pinpoint winning behaviors like objection handling and rapport building. Clients see up to a 15% improvement in sales effectiveness.

Quota Achievement

Guide agents with timely insights to reach and exceed their targets through automated script compliance and feedback.

Emotion Monitoring

Use emotional cues to support agents, reduce burnout, and improve customer satisfaction using our biometric emotion engine.

Visibility & Dashboards

Predictive Intelligence

- ✓ **Churn Prediction:** Flag at-risk prospects before they walk away.
- ✓ **CFI Insights:** Identify customers unlikely to follow through.
- ✓ **Conversion Targeting:** Optimize outbound lists by scoring likelihood to convert.

Deep Sales Analytics

Automate QA with high precision. Evaluate mandatory script elements and understand customer hesitations with **Objection Handling Analysis**.
